SUNDAY, DECEMBER 18, 1890.

The money market was steady and unchanged. Government securities were in moderate demand. Money was easy and plenty, particularly for call loans.—The Chicago purchase price was quoted nominally yesterday at 92½c, but there was very little wheat offering, though the foreign advices were very strong on breadstuffs. There was also very strong buying for Eastern account, and selling for speculative or mill account, Philadelphia & Reading was the prime favorite. There was also a good demand for Lake Shore, Northwestern, and Rock Island, while Sugar Trust was in moderate request. Coal stocks were quiet and steady. Lead was in fair demand, and Pacific Mail was active. Cotton was dull and weak, with sales of only 100 bales. Wheat was dull and weak, with sales of 1,000,000 bushels. Corn was dull and weak, with sales of 1,000,000 bushels. Pork was dull and weak, with sales of 1,000 barrels. Lard was dull and weak, with sales of 1,000 tierces.

There has not for some months been such a feeling of confidence in the future of business as there is now. Under the Baldwin-Felt tax law, which has been in force for a year, the average assessment of property has been about 40 per cent, and not less than 33⅓ per cent. Under the Illinois law, which went into effect July 1, the assessment is to be 100 per cent, and the rate of taxation is to be reduced one-half. The effect of this change will be to increase the assessment of property in Illinois about 150 per cent. It means a very large reduction in the taxation of personal property, and a considerable reduction in the taxation of real estate. The mortgage interest, moreover, will soon be paid by the borrowers of 40 per cent instead of 33⅓ per cent. Farmers and others, who have made the calculation, say that the change will be equivalent to a reduction of 3 per cent in the rate of interest. The effect of this change will be observed in the fact that the property will be assessed at a much higher proportion of its actual value than heretofore. Under the Baldwin-Felt law the assessment was generally about 40 per cent of the value, and in many cases it was much less than that. Under the Illinois law the assessment will be 100 per cent of the value, and in many cases it will be more than that. The assessment of personal property will be increased in a much greater proportion than that of real estate, because personal property has been assessed at a much lower rate than real estate. The effect of the change will be to increase the assessment of personal property from 40 per cent to 100 per cent, and the assessment of real estate from 40 per cent to 60 per cent. The increase in the assessment of personal property will be much greater than the increase in the assessment

THE KAISER STILL LIVES.

As a rule, all colored or highly perfumed soaps should be avoided as dangerous. They rely upon their appearance and odor (which disguises such materials) for their sale. The whiteness and the odor of the Brown Soap are natural to it, and are due to the excellence of the material used.

A WORD OF WARNING.

There are many white soaps sold represented to be "just as good as the 'Ivory'" they ARE NOT, but are all unsalable, save the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.

MONUMENTS

The point is, we want to be the bright, particular starting point of every man in need of reliable CLOTHING and where "reasons" in the will permit him to wear GOOD CLOTHES. Already the CITY RATES on Winter Goods have begun.

Overcoats and Suits

ALTERED (NOT) to measurement by the tailors on our outer walls, we are making—NOW RATE RATES—

A Discount of from 10 to 33 per cent

On thousands and thousands of dollars' worth of Men's and Boys' CLOTHING and FURNISHINGS, to reduce our immense stock of Winter Weight Goods. Winter has really only just begun, to warrant, but Christmas usually puts a quietus on the business, and we find the quickest is our SPECIAL SEASON SALES, such as have already begun in our house.
